Assessment and plan

BMI is 42.27 and she's gained about 10 pounds since the last visitation so we need to watch that

Hypertension on one reading but then settled down to be normal pressure after while

At this point time it's become very clear about the injuries that he sustained when his wheelchair was flipped over forward recently by a car. He sustained injury to his for head area on the right-hand side as well as having injury to the left shoulder and left knee as well as the left hand. He still has a great deal of tenderness in each of those areas. He has been seen at the University health system and they evaluated him at that particular point in time. At this moment he has decreased range of motion of the left shoulder as well as having pain in the area. He also has problems with the knee and the sense of being tender to touch has some swelling in the area and he reports some mobility issues in the sense that it feels as if it's too loose in the area and is becomes very uncomfortable for him when he walks around for Fairmont distances. My concern is is that he really does need further evaluation of both of these areas because of the fact that my concern is making sure that he does not have a rotator cuff tear in the right shoulder and also having more significant injury to the knee such as a meniscus tear or a ACL injury. At this point time , we'll continue to treat with medications for pain and inflammation and see how well he does as time goes on and hopefully he will avoid any type of surgical intervention but if necessary. May need to have

Patient: MYART, JAMES MRNO: 10748 DOB: 10/04/1954 - Continued
surgical intervention to take care of these problems. In terms of the head injury and probably he had the trauma to the head and he says that he's not sure as to whether or not it resulted in injury that would correspond to a concussion but he did have the trauma bad headaches that still persisted at this point time and also some compromise in his ability to concentrate because of the pain. So he is somewhat still held prisoner by this painful problems with his head. And so at this point time we'll continue with the medications to see if we get this under better control and also we'll see what we can do to get the evaluation was done at the University health system because of the fact that they did x-rays and other studies and is no point in repeating those things at this pedicle point in time. The last problem is his left hand and although there is no deformities of the fingers or any significant swelling his grip is decreased in that hand and also is very tender to touch at the MP junction and so at this point time we'll treat him as we have continued to do with that anti-inflammatories time and medications and see how this area heals as time goes on. He says that he went to the University health system and there was no fracture of the bone but still has pain so we'll just wait and see how he does. If there is no improvement in the next few weeks then we may need to have him see an orthopedist for further evaluation of this process as well.

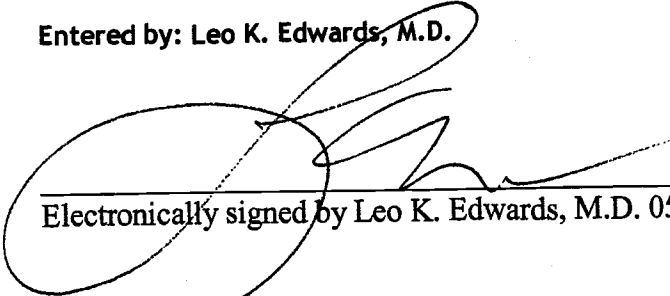

So our plan is basically to continue observing him and seeing how well he does with the overall management

In terms of the diabetes apparently his sugars were really quite elevated at the time. Of his incarceration and the values were between 5 and 700 from what I understand and they're doing better at this point time since we gave him medications for the management and will continue on this medication

The blood pressures variable at this point time and may have impact upon how he feels and headaches and so we'll continue to watch this. This has never been a problem for him is just more of a problem since she's had this fall and injury

He'll follow-up with us in next couple weeks

capable of making this affidavit as I have personal knowledge of all facts hereinafter stated:

"I was run over by Geroge Morales, a SAPD officer, on March 25, 2016. I sustained multiple injuries; and the medical records were given to Martha Sepeda, City Attorney;

I am the sole proprietor of Myart Consulting Group.; a small business registered DBA is on file in the office of the District Clerk, County of Bexar.

Since the beating at the hands of City of San Antonio police on April 26, 2016, I have been unable to work, due to physical and emotional damage sustained at the City Magistrate's office on April 26, 2016;

A contract for services from Willis Construction that would have earned Myart Consulting Group approximately \$30,000.00; but same was lost due to injuries sustained on April 26, 2016. See affidavit of Tony Willis attached hereto; same being incorporated herein as if fully set forth verbatim.

A contract for services from Thompson Harrison Plumbing Company, Owner Otto Thompson Harrison, that would have earned Myart Consulting Group and James Myart, Jr. approximately \$20,000.00; but same was lost due to injuries sustained by Myart on April 26, 2016. See affidavit of Otto Thompson Harrison; attached hereto; same being incorporated herein as if fully set forth verbatim.

Myart Consulting Group was suppose to go to Tillery, South Carolina, to meet with Gary Grant involving a back farmer lawsuit. The case is valued at \$1.5 Million dollars of which Myart

Consulting group would have earned \$500,000.00.

The following describes Myart Consulting Group. This ad copy appears in the San Antonio Observer on a weekly basis, except right now, I can not afford to pay for this business ad which cost \$500.00 per week. See ad on the internet as follows:

TESTIMONIALS FOR JAMES W. MYART, JR., BA, MA, JD

" I have known James since he was a teenager residing in Denver Heights, one of several community incubators in San Antonio known for producing

top talent. I speculate that is why Mr. Myart choose to attend law school so that he could optimize his gift of vision and fairness for those whose opportunities may be limited and may not have the influence or position to change their circumstance."

-Anthony C. Edwards, Retired, Former Executive, CPS Energy.

"As a lifelong resident of San Antonio, James Myart knows the local political arena extremely well. He's been in the ring, and he has the scars to prove it. Whether in the grassroots community or at City Hall, James has the intelligence and drive to go the distance."

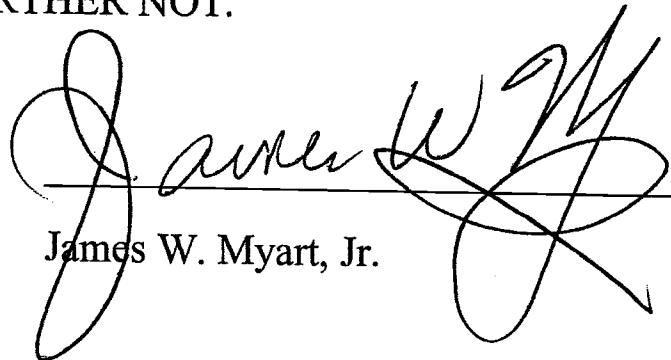

-Jonathan Gurwitz, Director of Public Affairs KGBTexas Communications

"James Myart is a phenomenal negotiator and legal communicator. He handled my radio contractual negotiations from 1993 to 2001 in San Antonio with great care. His efforts exceeded my, already high, expectations."

-Sonny Melendrez, Speaker – Broadcaster – Author

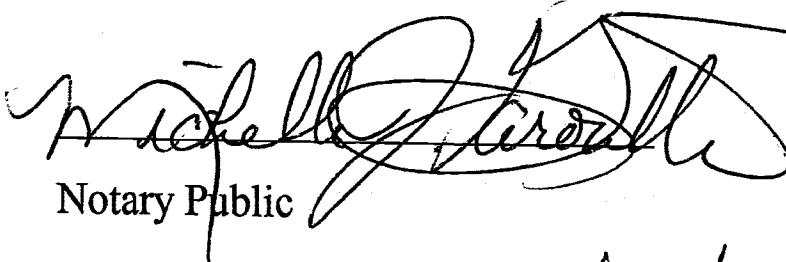

The medical record of Dr. Leo Edwards is attached hereto, marked Exhibit 3; same being incorporated herein as if fully set forth verbatim.

AFFIANT SAYETH FURTHER NOT.
